

How do I identify the model of my Apple TV device?

With all the different Apple TV devices, it's difficult for some people to figure out exactly which model, version, year, or generation device they own. This guide will help you quickly determine what you have.

Step 1: Open the **Settings** app.

Step 2: Select **About**.

Step 3: Check to the right of **Model** in the **About** section to see the model number.
