

Quick Overview to get started with the HBO Max App

Main Menu

When on the **Home Screen**, press the three horizontal bars in the upper left-hand corner of the screen to access the **Main Menu**. This will enable you to browse movies from specific genres such as *Action, Drama, Kids & Family*, etc. You can also choose from *HBO Original Series, Just Added*, and more.

Quickly Access Viewing Choices and Recent Activity

When on the **Home Screen**, press the **Profile** icon to bring up the following options:

My List

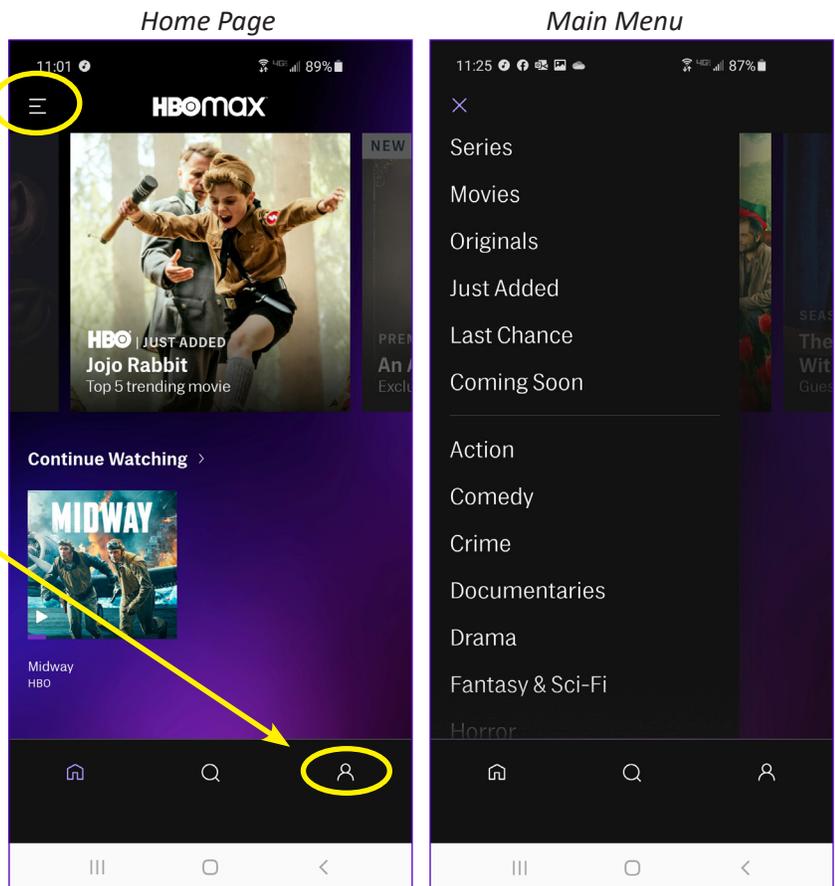

Once you find something to watch, tap **+ Add to My List** below the movie image. Movies and shows that you have selected will then show up under this list for quick access. To edit your list, press **Edit**.

Downloads

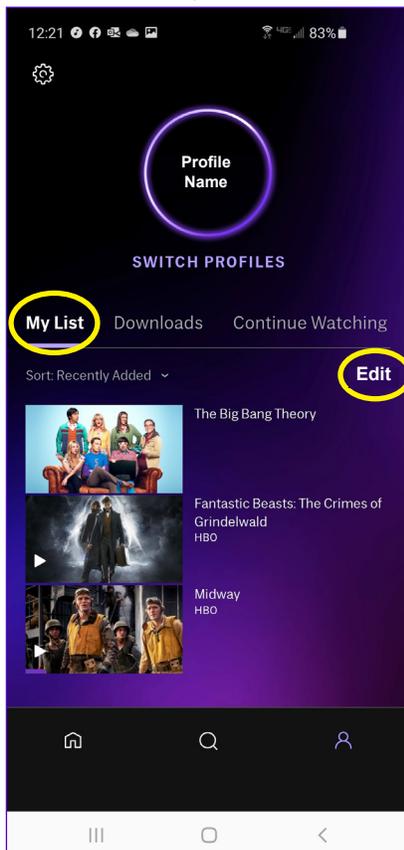

Once you find something to watch and tap **Downloads** below the movie image. This will save the selection to your device for viewing when offline.

Continue Watching

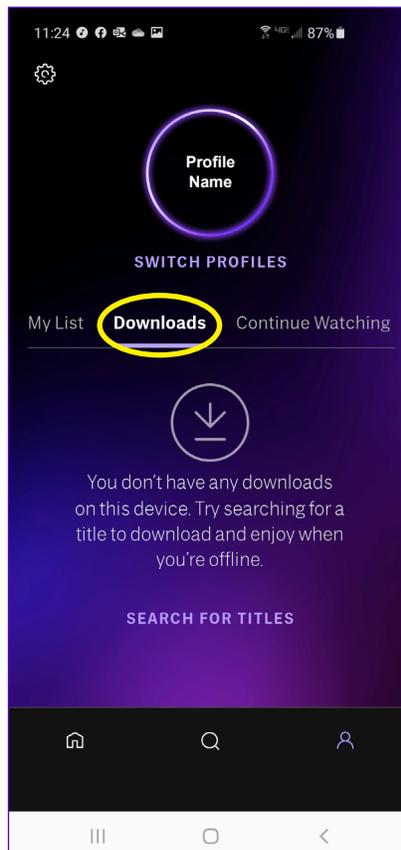

This option enables you to quickly go back to a movie or show that you have not finished watching.
